Students on ASU's Tempe campus enjoy a variety of academic programs and opportunities to enhance their learning. For example, Tempe campus is home to the first school entirely dedicated to undergraduate and graduate degrees and research in sustainability. And engineering, design and arts students have access to InnovationSpace, a sustainable product-development program. Students also have opportunities to participate in pioneering research in the Biodesign Institute and other centers, perform in Frank Lloyd Wright-designed ASU Gammage, and to pursue entrepreneurial interests through innovative programs embedded in each college. All students on the Tempe campus can take on an internship in their field of study, as well as have the opportunity to study abroad in one of 65 countries. And choices such as concurrent degree programs, accelerated degree options, and the selection of 7.5- or 15-week semesters allow students to customize their college experience to exactly what they want it to be.

Room and board is defined as double occupancy and 19 meals per week or the maximum meal plan. Required fees include only charges that all full-time students must pay that are not included in tuition (e.g., registration, health, or activity fees.) **H15** If your institution has recently implemented any major financial aid policy, program, or initiative to make your institution more affordable to incoming students such as replacing loans with grants, or waiving costs for families below a certain income level please provide details below:

ASU has many financial aid options. Financial support is available in the form of scholarships, grants, federal work-study, loans and outside resources. Almost everyone, regardless of income, can qualify for some form of financial aid. More than 70 percent of all ASU students receive some form of financial assistance every year. The university, in partnership with the ASU Foundation for a New American University, along with alumni, civic groups, private foundations, individuals, and federal and state governments, remains committed to helping our students reach their educational goals. In recent years, ASU has made unprecedented increases in the amount of university gift assistance awarded to our students. The Barack Obama Scholars Program assists select Arizona students from families of low to moderate income levels. By combining gift aid (i.e., Pell Grants, SEOG, ASU Grants, University Grants, LEAP, and scholarships) from federal, state, private, and institutional sources with Federal Work-Study, ASU will cover students' estimated direct costs of attending ASU (minus the Expected Family Contribution as determined by the FAFSA) for up to eight full-time, consecutive fall and spring semesters. ASU launched the innovative Scholarship Maintenance Plan, which allows for students on merit scholarship who are close to, but did not meet the academic standards for scholarship renewal, to receive a portion of their scholarship for the next year. This allows the student a chance to improve their performance with the goal of returning the student to his/her initial scholarship award level the year after. Most recently, ASU launched the College Attainment Grant Program to make college affordable and accessible for students from low income families. Through a combination of gift aid such as scholarships and grants from federal, state, private and institutional sources, resident tuition and fees are covered for up to four years for qualifying Arizona high school graduates.

Instructional Faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. Use the chart below to determine inclusions and exclusions:

	Full-time	Part-time
(a) instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services or are in the military), or research-only faculty, post-doctoral fellows, or pre-doctoral fellows	Exclude	Include only if they teach one or more non-clinical credit courses

*Part-time instructional faculty:* Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

*Minority faculty:* includes faculty who designate themselves as Black, non-Hispanic; American Indian or Alaska Native; Asian, Native Hawaiian or other Pacific Islander, or Hispanic.

*Doctorate:* includes such degrees as Doctor of Philosophy, Doctor of Education, Doctor of Juridical Science, and Doctor of Public Health in any field such as arts, sciences, education, engineering, business, and public administration. **12 Student to Faculty Ratio**

Report the Fall 2016 ratio of full-time equivalent students (full-time plus 1/3 part time) to full-time equivalent instructional faculty (full time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate-level students. Do not count undergraduate or graduate student teaching assistants as faculty.

and 2,067 faculty).

**I3 Undergraduate Class Size**

In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2016 term.

**Class Sections:** A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

**Class Subsections:** A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2016. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.

## J. DEGREES CONFERRED

**J1 Degrees conferred between July 1, 2015 and June 30, 2016**

J1 For each of the following discipline areas, provide the percentage of diplomas/certificates, associate, and bachelor's degrees awarded. To determine the percentage, use majors, not headcount (e.g., students with one degree but a double major will be represented twice). Calculate the percentage from your institution's IPEDS Completions by using the sum of 1st and 2nd majors for each CIP code as the numerator and the sum of the Grand Total by 1st Majors and the Grand Total by 2nd major as the denominator. If you prefer, you can compute the percentages using 1st majors only.
