ASU's many undergraduate programs offer students a variety of special academic opportunities. ASU offers domestic and international internships in a variety of disciplines, more than 250 study abroad programs in over 55 countries and work study programs. Students gain interdisciplinary skills through combining two areas of study from a list of more than 160 disciplines in the Interdisciplinary Studies program. The Ira A. Fulton Schools of Engineering offer co-operative education experiences. The McCain Institute for International Leadership in Washington, D.C. offers students the opportunity to gain experience in foreign policy and international relations through winter and semester courses with the Washington Policy Design Studio. ASU also offers students two ways to earn concurrent degrees; students can choose to create their own combination degrees programs to match their personal or professional interests or choose from a special, predetermined combinations. Accelerated degree options are also available for more than 55 degree programs. ASU has Semesters (15-week schedule) and Sessions (7.5 week schedule) allowing student's flexibility in choosing their schedule.

The number of hours in the major varies by degree program, and some programs may require more upper-division work. All students must satisfy a minimum of 35 credit hours of approved General Studies course work in five core areas and three awareness areas: mathematics studies; literacy and critical inquiry; humanities, fine arts, design, social and behavioral sciences; natural sciences; global awareness; historical awareness, and cultural diversity in the United States.

G1 Undergraduate full-time tuition, required fees, room and board List the typical tuition, required fees, and room and board for a full-time undergraduate student for the FULL 2016-2017 academic year (30 semester or 45 quarter hours for institutions that derive annual tuition by multiplying credit hour cost by number of credits). A full academic year refers to the period of time generally extending from September to June; usually equated to two semesters, two trimesters, three quarters, or the period covered by a four-one-four plan. Room and board is defined as double occupancy and 19 meals per week or the maximum meal plan. Required fees include only charges that all full-time students must pay that are not included in tuition (e.g., registration, health, or activity fees.) Do not include optional fees (e.g., parking, laboratory use).

If your institution has recently implemented any major financial aid policy, program, or initiative to make your institution more affordable to incoming students such as replacing loans with grants, or waiving costs for families below a certain income level please provide details below:

ASU has many financial aid options. Financial support is available in the form of scholarships, grants, federal work-study, loans and outside resources. Almost everyone, regardless of income, can qualify for some form of financial aid. More than 70 percent of all ASU students receive some form of financial assistance every year. The university, in partnership with the ASU Foundation for a New American University, along with alumni, civic groups, private foundations, individuals, and federal and state governments, remains committed to helping our students reach their educational goals. In recent years, ASU has made unprecedented increases in the amount of university gift assistance awarded to our students. The Barack Obama Scholars Program assists select Arizona students from families of low to moderate income levels. By combining gift aid (i.e., Pell Grants, SEOG, ASU Grants, University Grants, LEAP, and scholarships) from federal, state, private, and institutional sources with Federal Work-Study, ASU will cover students' estimated direct costs of attending ASU (minus the Expected Family Contribution as determined by the FAFSA) for up to eight full-time, consecutive fall and spring semesters. ASU launched the innovative Scholarship Maintenance Plan, which allows for students on merit scholarship who are close to, but did not meet the academic standards for scholarship renewal, to receive a portion of their scholarship for the next year. This allows the student a chance to improve their performance with the goal of returning the student to his/her initial scholarship award level the year after. Most recently, ASU launched the College Attainment Grant Program to make college affordable and accessible for students from low income families. Through a combination of gift aid such as scholarships and grants from federal, state, private and institutional sources, resident tuition and fees are covered for up to four years for qualifying Arizona high school graduates.

I. INSTRUCTIONAL FACULTY AND CLASS SIZE

Please report the number of instructional faculty members in each category for Fall 2015. Include faculty who are on your institution's payroll on the census date your institution uses for

I1 IPEDS/AAUP.

The following definition of full-time instructional faculty is used by the American Association of University Professors (AAUP) in its annual Faculty Compensation Survey (the part time definitions are not used by AAUP). Instructional Faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. Use the chart below to determine inclusions and exclusions:

	Full-time	Part-time
(a) instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services or are in the military), or research-only faculty, post-doctoral fellows, or pre-doctoral fellows	Exclude	Include only if they teach one or more non-clinical credit courses
(b) administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status	Exclude	Include if they teach one or more non-clinical credit courses
(c) other administrators/staff who teach one or more non-clinical credit courses even though they do not have faculty status	Exclude	Include
(d) undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like	Exclude	Exclude
(e) faculty on sabbatical or leave with pay	Include	Exclude
(f) faculty on leave without pay	Exclude	Exclude
(g) replacement faculty for faculty on sabbatical leave or leave with pay	Exclude	Include

Full-time instructional faculty: faculty employed on a full-time basis for instruction (including those with released time for research)

Part-time instructional faculty: Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

Minority faculty: includes faculty who designate themselves as Black, non-Hispanic; American Indian or Alaska Native; Asian, Native Hawaiian or other Pacific Islander, or Hispanic.

Doctorate: includes such degrees as Doctor of Philosophy, Doctor of Education, Doctor of Juridical Science, and Doctor of Public Health in any field such as arts, sciences, education, engineering, business, and public administration. Also includes terminal degrees formerly designated as "first professional," including dentistry (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), or law (JD).

Terminal degree: the highest degree in a field: example, M. Arch (architecture) and MFA (master of fine arts).

In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate-level students. Do not count undergraduate or graduate student teaching assistants as faculty.

I3 Undergraduate Class Size

In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2015 term.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2015. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.

J. DEGREES CONFERRED

J1 Degrees conferred between July 1, 2014 and June 30, 2015

J1 For each of the following discipline areas, provide the percentage of diplomas/certificates, associate, and bachelor's degrees awarded. To determine the percentage, use majors, not headcount (e.g., students with one degree but a double major will be represented twice). Calculate the percentage from your institution's IPEDS Completions by using the sum of 1st and 2nd majors for each CIP code as the numerator and the sum of the Grand Total by 1st Majors and the Grand Total by 2nd major as the denominator. If you prefer, you can compute the percentages using 1st majors only.
